*“We gave NEOM candles to our high profile fashion press contacts for an event. Everyone started shrieking with delight when they saw their name on it - like a fab pair of designer shoes, what girl doesn't want their own beautiful personalised candle?”*

Saskia Osmond-Evans (Senior PR Manager)  
**Evans, Burton & Dorothy Perkins**

*“We were delighted with the NEOM candle and box sets which we sent out to our clients, the presentation boxes were beautiful and the scent from the candles superb. A perfect gift for discerning clients and the NEOM team were extremely helpful in fulfilling our order.”*

Anna Brunskill (Senior Marketing Executive)  
**Elegant Resorts.**

**19 Entertainment** manage a huge range celebrity clients and music recording artists including David & Victoria Beckham, Andy Murray and Will Young to name a few. Alexandra Jones from 19 have been using NEOM their gifting needs for some time. She says:

*“We [at 19 management] love NEOM products! They have a fantastic range of candles, bath oils and room mists. The candles are amazing – it's like having an aromatherapy treatment in your own room! The great news is, the candles are made with pure oils so they don't release any toxins. My favourite is Restore, I feel full of zest and I can take on the day when I burn it.*

*We burn NEOM candles at our dinner parties and every time, without fail, at least one of our guests takes the website address so they can buy a candle of their own! NEOM are a great company to work with! Over the last few years they have brought a large selection of products into our office in the run up to Christmas and employees have been able to buy some of their amazing candles and room mists. It saves staff having to traipse around the shops and gives them the chance to buy really great quality candles and mists as gifts.*

*Their products are innovative (who knew you could feel like you've had an aromatherapy treatment just from burning a candle!) and great quality. NEOM staff are very helpful and can advise on the best candle to use for a specific treatment. Their website is great too!”*

NEOM Luxury Organics was created in 2005 with clear vision of creating an indulgent home gifting brand that was truly organic but whilst being hugely effective – a feat often tried but never achieved in the organic world. Why? Simply because organic oils, waxes and lotions are incredibly unruly and expensive to work with but the demand for products without parabens, synthetic scents and harmful chemicals was rapidly growing and founder Nicola Elliott decided to create the ultimate home scenting brand to work on the most indulgent level. There is no expense spared when it comes to the finest oils, sourced from around the world, the purest essential oils, the most luxurious packaging and a strict UK- only manufacturing rule.

Today, the NEOM Luxury Organics scented 'treatment candles' have become recognised as the most stylish candles in the hottest social circles, their 'eco chic' credentials and innovative aromatherapeutic scents for men & women alike making the brand the fastest growing organic range in the UK, whilst still feeling every inch the fresh, new and exciting label NEOM is.

Bath & shower oils to start your day with a boost of energy, home mists to energise your working space, candles to help you switch off and unwind and hand washes & lotions to add a touch of everyday luxury...we will help you find the perfect gift to suit your budget.
